Boeing 717 Advanced Flight Deck

The advanced flight deck for the new Boeing 717 will combine the latest in computer technology and flat panel liquid displays with an automatic flight management system. Featuring six LCD's, the flight deck will present all flight instrument data to the pilots. Computer keyboards on the center console and switches on the glare shield flight management panel will provide pilot inputs to the automated systems.

Junkers Ju 287

The most advanced
Jet-Bomber
of the Luftwaffe

This is the story of an aircraft that might have changed the air-war in 1945/46. Lots of photos, drawings, information, data and more than 6000 words give a detailed insight into the development of this unique piece of aviation.
